1. The following information (control figures) of the 1955 Export Plan for the Marketing Department in the Ministry for Heavy Industry. The control figures table amount to 824,614 thousand rubles.

2. [redacted], a control [redacted] in the amount of 800 million rubles was confirmed [redacted] However, it was also pointed out that an increase in export volume up to a value of 900 million rubles was to be striven for. Therefore, in order to attain this figure of 900 million rubles, additional production in the amount of 76 million rubles would be necessary. 25X1

3. An analysis based on the comparison of the 1954/55 Export Plan figures with the additional deliveries for the Export Plan for 1955 indicates that, in 1954, the following Main Administrations produced additional goods in the amount of 41,860 thousand rubles, as follows:

Main Administration for Heavy Chemistry	15.5 million rubles
Main Administration for Synthetic Products	19.5 " "
Main Administration for Liquid Fuels	5.5 " "
Main Administration for General Chemistry	1.0 " "

4. On the basis of an analysis of the additional exports of the various Main Administrations in 1954, the following percentages were suggested for the attaining of the 76 million rubles additional production figures:

Main Administration for Heavy Chemistry	40%
Main Administration for Synthetic Products	48%
Main Administration for Liquid Fuels	10%
Main Administration for General Chemistry	2%

In the Main Administration for Liquid Fuels the percentage figure could

of the Marketing Department a considerable amount of its fourth quarter 1954 over-production to be used for export.
